Family Communications

There are numerous options for ongoing communications with supervising staff, and the Intermediate Care Home has a 24-hour main phone line available for urgent needs. Each resident is encouraged to have their own private phone line in their room to stay in touch with family and friends. Resident supporters are also added to an email contact list for regular communications from The Palisades office. We also provide a monthly newsletter outlining special events and activities, which also includes a supper and snack menu you can reference when talking with your loved ones.
